

**DEPARTMENT OF EDUCATION AND COMMERCE**  
**INVESTIGATION INTO:**  
**GOOGLE (GOO278)**

The Department of Education and Commerce was, on the date of the Twentieth of June, 2021 (20/06/2021), tasked with investigating the company registered by Partypig678 as Google (GOO278) under suspicion of inactivity. The following report is a collection of relevant findings with the conclusion presented at the end:

- 1.) Sixteen (16) total people were questioned by both the economists Liz37 and Hamhamham420 regarding whether or not they: (a) have heard of Google; and (b) know what Google does, if they know who they are.

    - i.) 4/16 have never heard of the company
    - ii.) 9/16 have heard of the company but do not know what they do and/or have seen no work done
    - iii.) 2/16 are aware of projects being done by the company
    - iv.) 1/16 only responded that they were aware of the company
  
- 2.) Partypig was questioned by Trent between the dates of the Twentieth of June, 2021 (20/06/2021) and the Twenty-second of June, 2021 (22/06/2021) with little progress made in the time allotted to him.

With these findings at the forefront it is the official opinion of the Department of Education and Commerce that Google is active but operating at such a slow pace that it seems overtly suspicious and has caused the name to become synonymous with the very word “mystery”. The lack of information about the company available both to the public and government is due, in part, to Partypig’s dedication to disallowing anyone in on his ideas for fear of having them stolen from him and used without credit or permission. Despite these findings it is also the opinion of the Department of Economics and Commerce that, due to the nature of Google’s operations being based entirely out of Discord or other third-party mediums with Partypig and Uncle\_Simon being the only employees, they do not have any sort of requirement for an in-game storefront, headquarters, or office building.
