

# Letter to Congress From The Vice President and Secretaries of Cabinet

---

## Letter and General Overview:

Date: 01/12/2022

**Dear Mr. Speaker of the House,**

We, the assembled members of Cabinet no longer maintain faith in President Deadwax's abilities to conduct his constitutional duties and as such declare Deadwax to be incapacitated.

The President's destructive conduct with regards to the sovereignty of branches of Government, managing foreign relations and disregard for the will of the people have led us to make this decision. Albeit it one with dire consequences it is something we do not take lightly for the betterment of Redmont.

**Signed,**
