LTRequested Warrant Type: Arrest Warrant

Subject of Warrant: Roy405

Location: Anywhere in Redmont

Basis for Request: Roy405 currently has over 125 wanted stars, the vast majority of which (if not all of them) correspond to murder charges. He is teleporting, hiding on the map, and generally attempting to evade capture. He has been doing so for several days. He teleports into an impenetrable box in the player build world in order to avoid arrest.

The DHS therefore asks for a warrant to:

- (1) teleport Roy405 to /spawn using any tools available to any officer thereof, and arrest Roy405; or, in the alternative
- (2) be given permission to break blocks on Roy405's player Build World plots to arrest Roy405; or, in the alternative
- (3) instantly jail Roy405 using the /jail command, or a related command.
