During Discovery the defendant has stated that P-002, P-003 and P-004 are the only evidence that was used to convict plaintiff on these charges and that nothing else was added to the record after that. Plaintiff is requesting these items to see if there is more information that can back up these claims. As well as the evidence that was later brought up during this case.

I request that these items be produced under rule 4.7. If defendant believes any of these items should not be produced I ask that the court decide if these items should be produced before discovery ends

Respectfully submitted,
ShellShockMSG
