Document: Pasted text

Prepared for Matthew Graham

01 Analyzed text

No passages highlighted.

Your Honour,

As allowed under rule 4.6 of the Court Rules and Procedures Plaintiff will be submitting the following exhibits prior to the end of Discovery.

P-007 – Minecraft Chat Verified Warning

P-007 is an image taken on the server known as DemocracyCraft that shows a Minecraft warning of:

"Chat messages can't be verified. Messages sent on this server may be modified and might not reflect the original message."

Plaintiff will be using P-007 for the sole purpose of opening up an authentication issue with Defendants timestamps on exhibits D-004 through D-007.

It is not Plaintiffs current argument that a message has been tampered with or altered in anyway. Plaintiff is merely stating that the source of these exhibits should be authenticated with timestamp and time zone as well as bridge information prior to using them as fact that something took place on a certain date.

01 Analyzed text

No passages highlighted.

P-008 – SonOfaLancer Start Fight On August 21st 2026

P-008 is a screenshot that shows the following message generated from the server:

"SonOfaLancer has started the fight, you can legally defend yourself."

As Defendant has stated that Lieutenant SonOfaLancer is the one who submitted these records we believe P-003 and P-004 were submitted by him.

Plaintiff is using P-008 for the purpose of showing that if Lieutenant SonOfaLancer decides to testify about these records we would like to have the opportunity to use this as bias/hostility/impeachment.

We are not stating that this screenshot alone shows that SonOfaLancer retaliated against Plaintiff or is corrupt. Or that he had any reason to submit the records involved in the original Bank Robbery.

P-009 – Screenshot From Same Time As P-008 On August 21st 2026

P-009 is a screenshot taken at approximately the same time as P-008. This screenshot shows someone by the name of Lance Iris-Holmes asking Plaintiff how his lawsuit was coming along.

We are not saying that Lance Iris-Holmes is SonOfaLancer, DETECTIVHOLMES or anyone else that has been brought up in this case at this time.

This screenshot is being used for the purpose of having it in the event that someone can connect the dots between these people and what happened on August 21st.

There is no claim of intimidation being made at this time with P-009.

Reading the score

Human: below 15%. Mixed: 15-29%. Likely AI: 30% or higher.
Scores of 75% and above display as 100%, as on screen.

Reading the highlights

Highlights mark passages flagged by the model. Darker tints indicate higher sentence scores when available. Sentence scores are separate from the document score.

AI detection is an estimate, not proof of authorship. False positives and negatives are possible. Consider drafts, context and writing history; do not use this report alone to penalize a writer.
