How is my information or anyone's information for that matter stored, used, collected and distributed when it comes to the Application Process?

Additionally, please point out to me the disclaimers placed during or before such a process has started.

Please dont change your system right after me telling this hahah 😊

I have no idea, I personally have no access to anything like that.

snowguard Apr 20, 2026 3:07 PM
The Legal Department of the Party does not know what it's own Party does with regards to personal information?

reply to message (1495719728713568266)

snowguard Apr 20, 2026 3:10 PM
I cannot accept this as an answer, having no knowledge of what your Party does is unacceptable, either the Party has a process regards to personal information or it

doesn't.

Please get me a better answer than this.

reply to message (1495720832146735216)

dodrio3 Apr 20, 2026 3:11 PM

The executive commity proberly has more info on that. But its not realy personaly my job to do that stuff. Mabey derev will know as head of legal department.

snowguard Apr 20, 2026 3:13 PM

I believe I was asking the legal department and not individual members of the department. My bad, I assumed you were representing the entirety of it.

Please get me an answer, I dont believe co-ordinating internally about such a process is a hard or difficult task to do.

clocktest200 Apr 20, 2026 8:49 PM

mbmb plura constatly gets in stuff he isnt supposed to

reply to message (1495806038950023278)

clocktest200 Apr 20, 2026 8:52 PM

all we store and that isnt to be confused with private information is

your username

your playtime at the time of your application

"2. What most intrests you about the party?"

"3. To help ensure an inclusive and respectful environment, are you accepting and supportive of LGBTQ+ identities?"

"5. Tell us about your history in Redmont, what parties or business have you previously affiliated with?"

"4. Tell us a little bit about your political identity within Redmont."

"6. Do You Agree with the rules in our charter?"

most if not all parties have some sort of system in place for applications e.g tickets/appy

appy generates logs. that is something from the bot not dependent on us now we have a policy not to share those with anyone. if these have been violated you are welcome to leave a report and that will be taken seriously

snowguard Apr 20, 2026 8:55 PM

I'd advise you look into your member's actions in #politics

Anyways, through the power of attorney that Talion & Partners INC. holds, I hereby demand that this Party produce me all application logs submitted by mar_milk, pursuant to Section 6(c) of the Privacy Act.

we need written authorization to release said info.

snowguard Apr 20, 2026 9:02 PM

You still havent responded to "Please additionally show where you have informed all applicants of this information prior to or during data collection"

if you dont disclaim, then you can say so

reply to message (1495809377523859456)

clocktest200 Apr 20, 2026 9:02 PM

it is implied appy makes logs.
furthermore no info collected is "personal"

reply to message (1495809496650612887)

snowguard Apr 20, 2026 9:05 PM

The name of the person, their personal opinion, their history, their opinion about the queer community, their political identity are all personal

none of the information that can be merely understood from looking at one is personal

so you dont explicitly disclose "why your personal information is being collected, how it will be used, how it will be stored, and who it will be disclosed to, before or at the time of collection"

reply to message (1495810086134743180)

clocktest200 Apr 20, 2026 9:05 PM

it is implied appy has logs.

reply to message (1495810187452481738)

snowguard Apr 20, 2026 9:06 PM

The question is quite simple, do you or do you not disclose "why your personal information is being collected, how it will be used, how it will be stored, and who it will be disclosed to, before or at the time of collection"

If you refuse to answer, say so.

clocktest200 Apr 20, 2026 9:06 PM

furthermore we are not liable for member's actions and upon report we take reports seriously

reply to message (1495810330641698988)

clocktest200 Apr 20, 2026 9:06 PM

i have answered your question to my fullest extent

reply to message (1495810422455140605)

snowguard Apr 20, 2026 9:06 PM

We will see this fullest extent. 😊

reply to message (1495810335528058950)

snowguard Apr 20, 2026 9:07 PM

So you are negligent about your member's actions?

You don't take them seriously enough? or police them regarding data that is taken from this server?

is that it?

clocktest200 Apr 20, 2026 9:07 PM

that is not what i said.

snowguard Apr 20, 2026 9:08 PM

It is implied that you are negligent, that is in my opinion of course, is it not?

Additionally, I request a transcript of this ticket be made available to me after it's closure

clocktest200 Apr 20, 2026 9:09 PM

reply to message (1495810850735525888)

clocktest200 Apr 20, 2026 9:10 PM

the people whom have access to logs are a part of the EC, as such we dont parent them around (edited)

we take breach of privacy very seriously

if you could just point us to who released applications

snowguard Apr 20, 2026 9:10 PM
